

## Sharp Tip Contact Probe from Radir.com 01908 370000

The stainless steel probe makes it very versatile and is easy to clean to avoid contamination. The pocket clip also has a keyhole cut out so it could be mounted to the wall.

### SPECIFICATIONS

Temperature Range from  $-50^{\circ}\text{C}$  to  $300^{\circ}\text{C}$   
Accuracy  $\pm 1^{\circ}\text{C}$  ( $-50^{\circ}\text{C}$  ~  $150^{\circ}\text{C}$ )  
Accuracy  $\pm 2^{\circ}\text{C}$  ( $150^{\circ}\text{C}$  ~  $300^{\circ}\text{C}$ )  
Resolution  $0.1^{\circ}\text{C}$   
Battery life one year (used twice a day)  
Samples temp every second  
Dimensions 25mm x 12mm 225mm

### FEATURES

Sturdy 4mm diameter probe  
Probe length 120mm  
Probe protection sleeve  
Large 12mm LCD display  
Full instructions included  
Complete with battery  
Hold button locks the reading  
Probe is sharp for easy penetration

### WIDE RANGE OF APPLICATIONS

Air conditioning / Refrigeration  
Food processing  
Cooking and food safety  
Farming (is your flushing water hot enough?)  
Hydroponics and aquaculture  
Soil temperature / Animal health  
Brewing and wine making  
Household efficiency / Laboratory  
Automotive / Photography
